## QUALIFICATIONS PROFILE

**Solutions-focused and innovative professional with an extensive 25-year track record in SAP ERP implementation across a wide range of industries, including automotive, FMCG, retail, oil and gas, machinery construction, energy, and pharmaceuticals.**

Expert in material management, logistics execution, and sales and distribution (SAP MM/LE/SD), with a strong ability to conduct fit-gap workshops, define and confirm project scopes, and manage seven full-cycle SAP projects. Proficient in SAP customization, user role creation, and developing specifications for extensions, reports, forms, and interfaces. Skilled in SAP Query development, BADI, BAPI, LSMW development, and master data and document migration. Adept at building strong connections with end clients and delivering sustainable, efficient solutions aligned with complex business objectives. An articulate communicator, fluent in English and Russian, with a commitment to driving value through strategic ERP solutions.

## AREAS OF EXPERTISE

SAP Solution Management | SAP Inventory Management and Logistics Execution | SAP Query Development  
LSMW Development | Master Data and Document Migration | Change and Incident Management  
Project Tasks Management | Defects Tracking and Closure | Go Live Preparation and Support

## PROFESSIONAL EXPERIENCE

### SELF-EMPLOYED (SAP CONSULTING)

#### **Senior Consultant**, Jan 2023–Present

- Lead full-cycle SAP implementations, from initial planning and fit-gap analysis to post-implementation support.
- Conduct workshops with clients to clarify project scopes, identify business requirements, and deliver tailored SAP solutions.
- Manage and optimize SAP systems to ensure seamless integration, operational efficiency, and alignment with client business goals.
- Customize SAP systems to meet specific business needs, including user role creation, extension development, and report generation.
- Develop and execute data migration strategies, including master data and document migration, ensuring high-quality and efficient transitions.
- Provide strategic consulting on SAP Query development, BADI, BAPI, and LSMW to enhance system functionality.
- Offer ongoing support and training to clients, ensuring they maximize the value of their SAP systems while addressing evolving business challenges.

#### **Lead Consultant**, Apr 2020–Dec 2022

- Provided strategic direction and technical expertise for large-scale SAP ERP projects.
- Led teams in the design, customization, and optimization of SAP systems to meet specific client needs and improve business operations.

### COMPANY NAME, TORRANCE, CA

#### **Senior Consultant**, Jan 2017–Apr 2020

- Developed and executed a project aimed at aligning the internal production processes with SAP, encompassing the keen modification and testing of interfaces with external warehouse and production systems.
- Performed business assessment for SAP MM process improvement in the service center.
- Created specifications for the purchase order and invoice control process.
- Ensured accuracy in preparing test data along with conducting development tests and debugging.
- Formulated user and support instructions.
