FULL STACK WEB DEVELOPER | FRONT-END ENGINEER | BUSINESS ANALYST

*Front-end and Back-end Engineering | Full-Stack Development | Web Application Development | Data Security
Continuous Integration and Continuous Delivery | Server-Side Programming | Process Automation | System Architecture
Project Management | Software Development Life Cycle Management | Troubleshooting and Problem Resolution*

QUALIFICATIONS PROFILE

Solutions-focused, forward-thinking, and tech-savvy professional with hands-on experience in developing and deploying scalable, responsive, and user-friendly web applications and solutions. Skilled at applying algorithms and data structures to address complex technical challenges, enhancing application efficiency, and solving performance bottlenecks. Knowledgeable of cross-platform mobile development frameworks, with the ability to deliver consistent user experiences across web and mobile applications. Noted with expertise in Microsoft Power Platform by leveraging Power BI for data analysis and Power Automate to streamline processes. Articulate communicator, bilingual in English and French.

TECHNICAL SKILLS

Programming Languages:

HTML5 | CSS3 | JavaScript | TypeScript | C# | Java

Front-end Frameworks:

React.js | Next.js | React Native | Tailwind

Back-end Technologies:

Node.js | Express | Axios | Redux | AWS | Azure

Databases:

PostgreSQL | SQL | MongoDB | AWS DynamoDB & RDS

API Integration:

RESTful APIs | Express Middleware

Tools/Applications:

Microsoft Platform (Power BI and Automate) | Docker | Gitlab

RELEVANT EXPERIENCE

COMPANY NAME • HAWTHORNE, CA

Full-Stack Developer

06/2022–Present

- Lead the development of a public-facing website to enhance the company's online presence and improve client engagement.
- Architect and develop internal portals using Next/React framework, leveraging various AWS services for backend functionality to streamline data management across projects, inventory, and sales, boosting resource allocation and operational efficiency.
- Integrate CI/CD pipelines via AWS CodePipeline to automate build, test, and deploy processes, focused on expediting deployment time by 40%.
- Participate in team code reviews to ensure code quality, consistency, and adherence to best practices across all projects.
- Display expertise in the SDLC by managing all phases of development projects while producing comprehensive documentation for developed web applications, Power Platform customizations, and AWS configurations.

Notable Accomplishments:

- ✓ Modernized legacy data management systems by migrating to AWS DynamoDB, which resulted in a 25% increase in data retrieval speed and improved system uptime, setting the foundation for future scalability as the company expands.
- ✓ Spearheaded the successful launch and establishment of a new Development Department dedicated to addressing operational inefficiencies, which entailed the following:
 - **Engineered a centralized project management portal using the MERN stack**, automating tracking processes and improving operational efficiency by 50%, with a 15% acceleration in project delivery.
 - **Developed a Next.js-based inventory management system** for real-time stock monitoring across multiple locations, reducing shortages and optimizing procurement by 20%.
 - **Hired and managed contractual developers** to support ongoing projects and drive technological advancements within the company.

CLIENT NAME

FULL STACK WEB DEVELOPER | FRONT-END ENGINEER | BUSINESS ANALYST

Project Manager | Business Analyst

11/2017–05/2022

- Supervised cross-functional teams of up to 10 skilled trades professionals to ensure on-time and within-budget delivery of multiple residential construction projects.
- Managed up to six-figure budgets by leading vendor negotiations and managing supplier relationships, optimizing costs while ensuring material quality and timely delivery for all projects.
- Leveraged Microsoft Power BI to analyze KPIs and create reporting dashboards, offering actionable insights, and driving a 20% improvement in project ROI.
- Streamlined client and employee form management with Microsoft Power Automate, enhancing process efficiency and reducing task completion times by 50%.

Notable Accomplishments:

- ✓ Achieved 95% on-time project delivery across all managed projects by implementing proactive scheduling and risk mitigation strategies.
- ✓ Spearheaded the integration of project and financial data analytics with Microsoft's Power Platform, providing management with actionable insights that improved project ROI by 20%.
- ✓ Exemplified adeptness in troubleshooting project challenges and devising innovative solutions to meet evolving requirements and deliver high-quality construction projects.
- ✓ Enhanced communication and collaboration skills by managing client expectations, promoting teamwork, and providing regular updates on project progress, ensuring alignment and stakeholder satisfaction.

EDUCATION

Graduate Diploma in Computer Science, In Progress (Expected Completion: 12/2025)

University Name | City, State

Diploma in Full-Stack Web Development, 05/2023

University Name | City, State

React Development | Backend Technologies | Databases and REST API's Integration | Version Control with Git

Bachelor of Science in Health Kinesiology and Applied Physiology 06/2017

University Name | City, State

GPA: 4.0

Golden Key Honors Society (Top 10% of the Program) | Dean's List (2015, 2016, 2017) | Graduated with Great Distinction

Diploma of College Studies in Health Sciences, 06/2014

University Name | City, State

PROFESSIONAL DEVELOPMENT

AWS Certified Solutions Architect, 11/2024

Amazon Web Services

PERSONAL PROJECT

Project Name: **CodeCortex**

01/2024-Present

- Created a comprehensive social and educational hub for developers using Next.js and TypeScript to provide a collaborative environment for developers of all levels.
- Used Tailwind CSS for a cohesive, responsive user interface across all devices, allowing seamless adaptation to various screen sizes while maintaining consistent styling.
- Enabled users to ask coding-related questions, participate in discussions, and share insights.

ACTIVITIES

Medical First Responder and Logistics Coordinator, Saint John Ambulance Canada, Ambulance Saint-Jean

Student Volunteer, Cummings Centre ▪ Sleep Lab Technician, Concordia University PERFORM Centre
